1.—SPECIAL INSTRUCTIONS

(See also general instructions and scales in Equipment Regulations, Part I, 1923.)

I.—EQUIPMENT

1. *Details.*—Details of the equipment for war and for use in peace will be found on pages 30 to 101 for B.L. howitzer and gun equipments.

The equipment for brigade headquarters will be held by one of the batteries of the brigade.

2. Officers commanding are responsible that the proper steps are taken to make up any deficiencies that may arise in war equipment.

3. *Explanation of terms.*—The equipment of a battery is divided under two headings :—

(a) *Peace equipment.*—That which is required for use in peace, according to its peace establishment of officers, men and transport.

(b) *Mobilization equipment in charge of the unit.*—That which is required to complete the equipment, when raised from peace to war establishment.

4. *Accounting for Stores.*—The stores will be held on charge in the equipment ledgers, peace equipment being kept separately from that held on mobilization charge. Army Book 183 will be used in each instance.

The account will be balanced and rendered as laid down in Equipment Regulations, Part I, 1923.

5. *Storage of Ammunition.*—The following instructions are to be observed with regard to the storage of ammunition in charge of the unit :—

(a) Ammunition should not be stored in the vehicles in which it will be carried, but should be stored by the unit or R.A.O.C. in accordance with Magazine Regulations.

(b) Shell will be held plugged in peace.

(c) Ammunition in mobilization equipment should never be taken out of store except to replenish peace equipment or on mobilization. On no account should ammunition which has been in charge of the troops be returned to mobilization equipment in charge of the unit.

6. Further instructions regarding mobilization equipment are contained in Equipment Regulations, Part I, 1923.

7. *Camp equipment for annual training.*—To allow of the annual course of military training laid down in Artillery Training being carried out, the issue of a complete set of camp equipment for one battery will be made from local ordnance store to each brigade serving in the district (or in the case of single battery stations, each station). Articles belonging to the mobilization equipment in charge of units will not be used for this purpose.

8. The stores required will be demanded under the orders of officers commanding brigades, who will detail the battery to demand, and arrange sequence in which the equipment is to be handed over from one battery to another.

The equipment on completion of the training will be returned to the R.A.O.C. by the battery last using it.

9. Local arrangements must be made to ensure that the equipment of the battery, complete in every respect, is available and correctly packed. Empty cases or dummies will be used on these occasions to represent any articles which are not available in the district.

10. *Standing Camps and Manœuvres.*—Camp equipment for standing camps and manœuvres should be demanded in accordance with the scales laid down in Equipment Regulations, Part I, 1923.

II.—MARKING OF EQUIPMENT

11. The camp kettles and water buckets belonging to the peace equipment will be marked in front with the letters "R.A." and in the rear with the letter of the sub-section and number of the battery, thus :—

$$\frac{\text{" B "}}{120}$$

Camp kettles in white, water buckets in black.

Any question of doubt, method of marking, or the correct position should be referred to "The Under-Secretary of State (M.G.O.2), The War Office, S.W.1."

12. Detailed instructions for marking vehicles and the equipment will be found in Equipment Regulations, Part I, 1923.

III.—REPAIRS

13. The examination and repair of equipment should be carried out by the R.A. artificers so far as may be possible. When special tools or appliances are required which are not

available with the battery, the artificers should be sent, together with the material requiring repair, to the nearest R.A.O.C. workshop at which the necessary facilities exist, in order that they may there carry out or assist in carrying out the repair. Any implements, etc., required in carrying out a repair of this equipment should accompany the artificers.

14. Statement of repairs to armament performed by R.A. artificers will be forwarded weekly by officers commanding batteries to the D.A.D.O.S. of the area or district, in order that the O.M.E. may be kept informed of the condition of armament (*see* para 372, Equipment Regulations, Part 1, 1923). The rendering of this report in no way relieves officers commanding batteries from being responsible for the condition of their equipment.

15. Ordnance mechanical engineers are available to advise officers commanding on any question which it may be desirable to refer to them in connection with the field armament, and should visit units as frequently as their duties permit.

When the services of these officers are required in connection with the inspection, modification, or repair of equipments which cannot be carried out by battery artificers, application will be made by officers commanding units to the D.A.D.O.S. of the area.

Officers commanding brigades will arrange that the services of the artificers are utilized in keeping the equipment of the brigade in a thoroughly serviceable condition.

16. Materials for cleaning and preserving ordnance, carriages, etc., will be found on pages 12 and 13.

For detail of "Chests, tool, filled," and sets of tools, *see* pages 19 to 27. Tools, materials and time allowed for scraping and painting ordnance, machine guns, carriages, projectiles, etc., will be found on pages 14 to 17.

IV.—RETURNS

17. Ordnance on Royal Artillery charge will be included in the Annual Return, Army Form G. 872, rendered on the 1st October by officers commanding Royal Artillery in districts in accordance with the King's Regulations.

V.—EXAMINATION OF ORDNANCE

18. Instructions for the examination of Ordnance will be found in Regulations for Army Ordnance Services, Part II.

The O.M.E. will carry out annual inspection of all technical stores, artillery material, including range and other optical stores (*vide* Regulations for Army Ordnance Services, Part I, 1929).

19. All spare parts should be tried for interchangeability as soon as possible after receipt, and a report of the defects, if any, forwarded to the Chief Inspector of Armaments, Woolwich.

20. Spare parts of guns and mountings are supplied solely for the purpose of replacing similar defective or damaged parts, and will not be used for any purpose other than that for which they are maintained, unless specially authorized.

VI.—TARGETS FOR GUN PRACTICE

Land Ranges

21. Targets for use at practice camps will, as far as practicable, be made up locally. The targets are of the pattern described in Instructions for Practice.

VII.—AMMUNITION FOR PRACTICE AND EXERCISE

22. Separate instructions will be issued annually by Army Council Instructions regarding the nature and amount of ammunition allowed.

23. *Turnover of Ammunition.*—To ensure a “proper turnover” of ammunition, all ammunition fired at annual practice by batteries will be taken from their service equipment—that in peace equipment being used up first.

Further instructions regarding the turnover of ammunition are laid down in Equipment Regulations, Part I, 1923.

Demands to complete equipment will be put forward prior to departure of batteries to practice so that on their return to their station the ammunition may be in readiness.

In cases where batteries are to exchange stations after practice, the new station where the ammunition will be required should be clearly indicated on the demand.

Demands for cartridges must be accompanied by a list of the propellant lots, with their group letters and numbers, of the natures concerned held on charge by the unit in order that propellants of similar lots to those in possession may, as far as possible, be issued.

24. *Indents.*—Ammunition will be demanded on Army Form G.988. Any of the annual supply of service or blank ammunition which has not been expended by the end of the year (31st March) for which it is allowed will be forfeited. (See Equipment Regulations, Part I, 1923, as to allowances of and accounting for blank gun ammunition.)

25. In demanding fuzes, tubes, and other laboratory stores supplied in sealed cylinders, the numbers given in the details of equipment will be adhered to as closely as possible ; but full cylinders should always be demanded. Cylinders containing these articles will on no account be opened, until their contents are required for immediate use.

26. Owing to the liability of tubes to deteriorate when kept loose, tube pockets should only be filled when batteries are on active service, or at practice and manœuvres.

On the last day of practice, however, or during manœuvres, the number of tubes to be carried in the pockets will be regulated by the number of rounds to be expended during the day.

27. The hermetically sealed tinned-plate cylinders containing fuzes will be marked by the battery by scratching on them, with a pointed implement, the date on which they are received.

28. Tubes will, after firing, be returned to the R.A.O.C. They should not be immersed in mineral oil.

VIII.—HANDBOOKS

29. Handbooks are issued in the following proportions :—

For brigade headquarters ...	...	...	...	2
For each battery ...	...	...	...	15
For each battery, officers ...	...	...	...	5

IX.—STORES FOR MUSKETRY INSTRUCTION

30. The following will be allowed for each battery for use during peace :—

Section B3

Action, skeleton, rifle, No. 1, Mk. III*	...	...	1
Aim correctors, No. 1, Mk. II	...	...	2
Implements, action, No. 1, Mk. II	...	...	1
Rifles, No. 2, Mk. IV*	...	...	4
Tools, guard, hand	...	...	1
Tools, cleaning :—			
Brushes	...	...	4
Cleaners	...	...	4
Rods, No. 6	...	...	4

Section Q2

Cartridges, Small Arm, drill—

Revolver, .455-in., D Mk. I	...	2 for each pistol.
.303-in., D Mk. VI	...	15 „ rifle.
Chargers, .303-in. cartridges	...	3 „ „

X.—HORSE SHOES

Peace only

31. All horses requiring shoes will be shod with machine-made shoes, which will be supplied according to the scale below, unless otherwise demanded (*see* also Equipment Regulations, Part I, 1923, for shoes allowed for each animal).

The table below shows the sizes and percentages of shoes as a guide for submitting indents.

Riding horses

Description										Percentage of sizes
<i>Section D2</i>										
Shoes, horse, pairs—										
No. 4—										
Fore	...	...	...	...	...	...	...	...	...	75
Hind	...	...	...	...	...	...	...	...	...	75
No. 5—										
Fore	...	...	...	...	...	...	...	...	...	25
Hind, without calkins	...	...	...	...	...	...	...	...	...	25
Nails, shoe horse (a)										
(a) As required.										

See Equipment Regulations, Part I, 1923, regarding allowance of frost cogs, taps and wrenches.

XI.—STORES FOR THE REPAIR, PRESERVATION AND PAINTING OF EQUIPMENT

32. The repair of saddlery allowed for the headquarters of brigades and Royal Artillery districts will be effected by the artificers of the nearest battery when practicable.

Ordnance, Carriages, Projectiles, etc.

33. Detailed instructions for the preservation and inspection of ordnance, etc., are given in the Magazine Regulations and Regulations for Care and Preservation of Artillery Equipments, for the guidance of officers of artillery in carrying out the services therein referred to and of Ordnance officers in supplying such materials and stores as may be required from time to time for carrying out the instructions.

34. The allowances of materials for care and preservation of equipment in batteries (excepting saddlery) and the tools, etc., for painting are laid down for peace purposes in the following table (oil, C.70, cotton waste coloured, and rags, linen or cotton required for use at the annual overhaul will be indented for, as required, from the R.A.O.C., and will be additional to what is laid down) :—

Annual Allowance

Sect.	Article	Allowance		Purpose for which allowed and remarks.
		B.L. 6-in. gun B.L. 8-in. howr.	B.L. 9.2-in. howr.	
H1	Bathbricks (e)	2 for each sub-section	6 for each sub-section	General cleaning purposes.
H1	Beeswax ...	4 for each sub-section	12 for each sub-section	
H1	Chalk, prepared, white (e)	2 for each battery	2 for each battery	General purposes.
H1	Cloth, emery, No. F	4 for each sub-section	4 for each sub-section	
K	Cloths, sponge ...	10 for each sub-section	10 for each sub-section	General cleaning purposes.
H2	Cotton, waste, coloured	14 for each sub-section	14 for each sub-section	
H1	Cylinders, tin, lever lid, 4-pt.	4 for each battery	4 for each battery	For mineral jelly.
H1	Dubbing ...	1 for each sub-section	1 for each sub-section	
H1	Glue, ordinary ...	$\frac{3}{4}$ for each battery	$\frac{3}{4}$ for each battery	Leatherwork, straps, etc.
H1	Grease, C.C. (a)	3 for each wheel (b)	3 for each wheel (b)	
H2	Hessian packing, 48-in.	$\frac{3}{4}$ for each wheel (b)	$\frac{3}{4}$ for each wheel (b)	Lubricating purposes.
H1	Mineral jelly, red ...	10 for each battery	10 for each battery	
		8 for each sub-section	8 for each sub-section	General cleaning purposes.
				General purposes (including protection of bore and breech fittings, also axle-tree arm points).
H1	Oil, linseed, boiled	1 for each sub-section	1 for each sub-section	Coating bright parts.
H1	Oil, linseed, raw ...	$\frac{1}{4}$ for each sub-section	$\frac{1}{4}$ for each sub-section	
H1	Oil, C.70 (c)	14 for each sub-section	24 for each sub-section	Side arms.
H1	Oil, mineral hydraulic buffer	(d)	(d)	
H1	Oil, olive ...	4 for each battery	4 for each battery	General cleaning purposes.
H1	Paint, prepared for use— Black, lamp ... Lead, white ...	4 for each battery 4 for each battery	4 for each battery 4 for each battery	Buffers and recuperators Preservation of obturator pads.
				Painting aiming posts

NIV	Rags, cotton, old, soft	...	lb.	1 for each battery	1 for each battery	Cleaning optical portions of instruments.
NIV	Rags, linen or cotton, old	...	lb.	10 for each sub-section	10 for each sub-section	} General cleaning purposes. Preservation of obturator pads. Packing stores Thinning paint.
H1	Soap, soft	...	lb.	1 for each sub-section	3 for each sub-section	
H1	Soap, yellow	...	bars	12 for each sub-section	36 for each sub-section	
H1	Tallow	...	lb.	4 for each battery	4 for each battery	
H2	Tow, jute	...	lb.	1 for each sub-section	1 for each sub-section	
H1	Turpentine	...	pt.	$\frac{1}{2}$ for each battery	$\frac{1}{2}$ for each battery	

(a) "Grease, H.C." will be issued at all stations abroad.

(b) 3-lb. allowed on certificate from C.O. that vehicles are in constant use. $\frac{1}{2}$ -lb. only for vehicles on Mob. Charge, or when not in constant use.

(c) "Mineral jelly, red" (1-lb. in lieu of each pint) may be issued in lieu.

(d) As necessary.

(e) To be provided locally.

To be demanded as required and returned to Ordnance Stores when unserviceable :—

Section	Articles	For each Battery
D1	Pans, oil	4
	Brushes, paint :—	
	1-knot, 3/0	3
	Brushes :— { No. 2	3
	Sash tool { No. 4	2
	{ No. 6	2
F	Brushes, writing, duck	2
	Cans, paint { large	1
	{ small	1
	Knives { palette, 9-in.	1
	{ putty	1

When a battery is placed on a war footing none of the above-mentioned articles in possession will be maintained in the field.

35. The paint allowed for painting guns, carriages, etc., of batteries, as laid down in the following tables, will be demanded on the 1st March or the 1st September and the painting will be carried out by the battery artificers.

Materials for cleaning and preservation of Small Arms and Machine Guns

(See Equipment Regulations, Part I, 1923)

Materials, Time, and Working Pay allowed for Painting the following Vehicles, etc.

Annual Supply, during Peace only

N.B.—For the vehicles, etc., forming the mobilization equipment in charge of batteries, the allowance of paint, etc., should only be issued when they actually require painting,

TABLE A

Description	Paint prepared for use. Service colour	Putty	Scraping and cleaning (a)	Painting (a)

6-in. ...	7	8	1	14 0	4 45	3 0	
Shrapnel, steel,							
6-in. ...	8	4	1	14 0	4 30	3 0	

(a) Working pay is issuable for this service under Art. 837 *et seq.*, Royal Warrant, 1926.

37. *Tinman's Tools*.—As tin closing bands and bottoms of fuze cylinders are liable to become detached through jolting in the vehicles, thus causing deterioration of the fuzes, a set of tinman's tools is supplied to each battery, and loose bands and bottoms should be refastened as soon as any defect becomes apparent.

38. The undermentioned inflammable stores, if required, may be demanded from the R.A.O.C. for the artificers' use.

<i>Section H 1</i>			
Lacquer, special pale gold ...	...	...	...
Methylated spirits, industrial	For use with brazing lamp in armament artificers' tool chest	...	...
Solution, bronzing ...	...	...	...
Bottles, stone, $\frac{1}{4}$ -pint	For lacquer and bronzing solution	...	...
Bottles, tin, oil—			
2-quart ...	For methylated spirit	...	...
2-gallon ...	For oil, mineral, burning	...	...
<i>R.A.S.C. Supply</i>			
Oil, mineral, burning	For brazing lamp	...	...

XII.—SIGNALLING AND TELEPHONE STORES

39. Signalling and telephone stores on the following scales are allowed :—

Articles	For each battery		Remarks
	War	Peace	
<i>Section A 1</i>			
Belts, lineman	—	—	1 for each signaller.
Frogs, pliers, side-cutting, 8-inch	—	—	1 for each signaller.
<i>Section F</i>			
Pliers, side-cutting, 8-in. ... pair	—	—	1 pair for each signaller, will eventually be replaced by 7-in.
Pouches, tool, lineman (filled) ...	1	1	For detail of contents, see L. of C. A 2322.

(a) 100-lb. till the 30-lb. are available.

(b) Choppers, meat, butchers', till available.

(c) Knives, butchers', cutting, till available.

2.—DETAILS OF EQUIPMENT

I.—HEADQUARTERS

(See para. 1, page 5)

TABLE 1.—Arms

	General Scale of Issue— Peace and War			
<i>Section B 1</i>				
Rifles, No. 1, Mk. III*	...	...	...	5 for each headquarters, war only.
Bottles, oil, Mk. IV	...	...	...	1 for each rifle.
Protectors, muzzle, No. 1 (a)	...	...	...	1 for each rifle, war only.
<i>Pull throughs—</i>				
Single, Mk. IV, B	...	...	...	1 for each rifle.
Gauze	...	...	... pieces	1 for each rifle.
<i>Section B 2</i>				
Pistols, revolver, No. 1, Mk. VI	...	...	...	1 for each Warrant Officer, Class I.
<i>Pistols, revolver, No. 1—</i>				
Protectors, hammer, Mk. II	...	...	...	1 for each pistol (peace only).
Rods, cleaning, No. 2, Mk. I	...	...	...	1 for each pistol.
Swords, cavalry, No. 1, Mk. I*	...	...	...	1 for each Warrant Officer, Class I.
Scabbards, sword, cavalry, No. 1, Mk. I*	...	...	...	1 for each cavalry sword.
Scabbards, sword, cavalry, Sam Browne, Mk. I	...	...	...	1 for each warrant Officer, Class I.
<i>Section B 3</i>				
Clams, No. 2	...	...	...	} 1 for each headquarters. For artificers, R.A.
Corks	...	...	...	
<i>Tools, bore—</i>				
Bits	...	...	...	
Bushes	...	...	...	
Rods	...	...	...	

(a) To be fitted to rifles on mobilization.

TABLE 2.—Accoutrements

	General Scale of Issue	
	Peace	War
<i>Section A 1</i>		
Bags, ration	—	1 each all ranks.
Belts, shoulder, sword, Sam Browne	2 for each warrant officer, Class I.	2 for each warrant officer, Class I.
Belts, waist B.E. leather	1 for each N.C.O. and man except warrant officer, Class I.	—
Belts, waist, sword, Sam Browne	1 for each warrant officer, Class I.	1 for each warrant officer, Class I.
Bottles, water, Mk. VI ...	1 for each warrant officer, N.C.O. and man.	1 for each warrant officer, N.C.O. and man.
Braces, with buckle ...	1 for each haversack, O.S.	1 for each haversack, O.S.
Bugles	1 for each trumpeter	—
Carriers, water-bottle, O.S.	1 for each water-bottle.	1 for each water-bottle.
Cases, pistol, Sam Browne	1 for each warrant officer, Class I.	1 for each warrant officer, Class I.
Frogs, Sam Browne ...	1 for each warrant officer, Class I.	—
Haversacks, O.S. ...	1 for each warrant officer, N.C.O. and man.	1 for each warrant officer, N.C.O. and man.
Helmets, steel, Mk. I ...	1 for each officer, warrant officer, N.C.O. and man.	1 for each officer, warrant officer, N.C.O. and man.
Knots, sword, brown ...	1 for each warrant officer, Class I.	—
Lanyards, pistol	1 for each pistol	1 for each pistol.
Pouches, ammunition, pistol—		
Sam Browne	1 for each warrant officer, Class I.	1 for each warrant officer, Class I.
Slings, rifle, web	—	1 for each rifle.
Straps, brown—		
Great coat (a)	1 for each warrant officer, N.C.O. and man.	1 for each warrant officer, N.C.O. and man.
Mess-tin, M.S.	1 for each warrant officer, N.C.O. and man.	1 for each warrant officer, N.C.O. and man.
Strings, bugle and trumpet, Royal	2 for each trumpeter	—
Thongs, whistle	1 for each whistle, Artillery.	1 for each whistle Artillery.
Tins, mess, M.S.	1 for each warrant officer, N.C.O. and man.	1 for each warrant officer, N.C.O. and man.
Trumpets	1 for each trumpeter	—
Whistles, Artillery ...	1 for each warrant officer, Class I, staff serjeant, or serjeant.	1 for each warrant officer, Class I, staff serjeant, or serjeant.

(a) When stocks of "straps, web, greatcoat" are used up.

TABLE 3.—Camp Equipment

	General Scale of Issue	
	Peace	War
<i>Section J</i>		
Boxes, stationery, field (a)	1 for each head-quarters.	2 for each head-quarters.
Small, Mk. V ...		1 for every 3 officers or 16 other ranks.
Kettles, camp, Mk. III ...	—	1 for each W.O., N.C.O. and man on mobilization.
Sheets, ground, Mk. VII	(b)	
<i>Section K</i>		
Blankets, G.S. ...	—	1 for each W.O., N.C.O. and man.
Stretchers, ambulance, Mk. II ...	—	4 for each head-quarters
Bars, suspension ...	—	4 for each head-quarters.
<i>Section L</i>		
Lamps, hurricane ...	—	2 for each head-quarters.

(a) The box on peace charge is allowed for confidential documents. The additional box for war will be stored with the units' mobilization equipment and filled with books, forms, and regulations, in accordance with A.F.L. 1398 series.

Canvas, cradle cap, B.L. 6-in. gun, Mks. VIII and VIIIA and 8-in., Mk. VIIIA howitzer carriages	1	—	1	—	
Discs, adjusting obturator, B.L. 6-in., Mk. XIX gun (spare)	3	—	3	—	
Gauges, thickness, obturator, steep coned, B.L. 6-in., Mk. XIX gun ...	1 (a)	—	1 (a)	—	
Handspikes, lifting trail, carriage travelling, B.L. 6-in. gun, Mks. VIII and VIIIA, also Mk. VIIA 8-in. howitzer ...	6	—	6	—	
Hawsters, wheel purchase, B.L. 6-in. gun and 8-in. howitzer travelling carriages ...	2	—	2	—	
Heads, brush, rammer and sponge, B.L. 6-in. chamber (b) ...	1	2 (c)	1	—	
Hose, No. 1 pump, liquid, portable, 5-ft. long ...	1 (a)	—	—	1	
Indicators, fuze, No. 16 (or No. 17) (d) ...	2	—	2	—	
Limbers, B.L. 6-in. gun and 8-in. howitzer ...	—	6	—	4	
Obturers, B.L. 6-in., Mk. XIX gun (e) ...	3 (f)	—	3 (f)	—	

(a) For each section.

(b) Will be issued when stock of "Brush, rammer and sponge" is exhausted.

(c) Spare.

(d) As required according to ammunition in possession.

(e) For replacement purposes, the sub-components of the obturator can be demanded separately as follows.—

Discs, protecting, front, obturator, B.L. 6-in., Mk. XIX gun.

Pads, obturator, B.L. 6-in., Mk. XIX gun.

Rings, front, obturator, B.L. 6-in., Mk. XIX gun.

Rings, rear, inner, obturator, B.L. 6-in., Mk. XIX gun.

Rings, rear, outer, obturator, B.L. 6-in., Mk. XIX gun.

(f) Includes 2 spare for each gun. Obturers should be kept complete in their boxes.

Springs, disc, No. 83	4

**Box, Store, B.L. 8-in. Mark VIIA Howitzer Carriage,
No. 1—continued**

Articles	No.
<i>Carried in Tray</i>	
<i>Section M 3</i>	
Adapters , pressure gauge, B.L. 6-in. gun, 6-in. 26-cwt. and 8-in. howitzer equipments —	
Washers, cap (also for pipes connecting compressor to recuperator)	4
Borer , vent axial, .303-in. chamber	1
Compressor , air, portable—	
Links, connecting, roller chain, single	3
Links, cranked, roller chain, single	1
Key , adjusting valves	1
Ordnance B.L.—	
Boxes, slide V	1
Collars, main spring, lock, percussion, P.H.	1
Collars, rebound, lock, percussion, P.H.	1
Levers, extractor, box, slide, V	1
Locks, percussion, P.H.	1
Screws, axis, extractor, box, slide, V	1
Spindles, striker, lock, percussion, P.H.	2
Springs, main, lock, percussion, P.H.	1
Springs, retaining catch, lock, percussion, P.H.	1
Pumps , air, two-stage, vertical, Nos. 1 and 2—	
Rings, piston, high pressure	2
Rings, piston, low pressure	1
Springs, valve, large	1
Valves, large	1
Springs , ball or coned valve, No. 1	3
Tanks , gravity, B.L. 60-pr. gun, 6-in. 26-cwt. and 8-in. howitzers and 6-in., Mk. XIX gun—	
Plugs, filling, Mks. II* and III—	
Nuts, relief valve	1
Springs, relief valve	1
Washers, packing	2
Plug, filling, Mk. II*—	
Valves, relief (a)	1
Plug, filling, Mk. III—	
Valves, relief (a)	1
Strainer	1
Tanks , gravity, B.L. 6-in. 26-cwt. and 8-in. howitzers and 6-in., Mk. XIX gun—	
Reflectors	1
Screws, securing cover	2
Sight glasses	1
Washers, packing, sight glass and reflector	1
Wrenches , breech mechanism—	
No. 137	1
No. 199	1
<i>Section P 1</i>	
Carriages , travelling, B.L. 6-in. gun, Mks. VIII and VIIIA, also 8-in. howitzer, Mk. VIIA—	
Buffer, hydraulic—	
Washers, filling hole plug, A	4
Washers, packing, control cylinder	1

**Box, Store, B.L. 8-in. Mark VIIA Howitzer Carriage,
No. 1—continued**

Articles	No
<i>Section P 1—contd.</i>	
Buffer and recuperator—	
Washers, filling hole plug, piston	2
Recuperator—	
Washers, packing, pressure gauge adapter plug	6
Washers, packing, stuffing box	4
Washers, right overflow plug	4
Carriages , travelling, B.L. 6-in. gun, Mk. VIIIA and 8-in. howitzer, Mk. VIIA—	
Buffer, hydraulic—	
Caps, stuffing box	1
Rings, joint, stuffing box	1
Sleeves, stuffing box	1
Washers, packing, stuffing box	1
Gauges , thickness, obturator, steep coned, B.L. 8-in., Mk. VIII howitzer	1
Lanyards , firing, No. 33, long	3
Ordnance , B.L. 8-in. howitzer, Mk. VIII—	
Catches, breech mechanism lever	1
Crossheads	1
Pins, axis, roller breech screw	1
Plates, catch, breech mechanism lever	1
Plates, retaining, breech screw	1
Roller, breech screw	1
Springs, catch, breech mechanism lever	2
Springs, vent axial	2
Washers, bearing	1
Spanner , No. 424	1
Tanks , gravity, B.L. 6-in., Mk. XIX gun and 8-in., Mk. VIII howitzer—	
Packings, cover	1
Washers, coupling nut feed pipe	2
Washers, packing isolating valve body	5
Washers, packing, tank body	1
Tommies , presses obturator, No. 3	1

(a) According to Mk. of filling plug.

**Box, Store, B.L. 8-in. Mark VIIA Howitzer
Carriage, No. 2**
